Thanks to **CSC**¹'s **Funet Antenna**² service the TREX Workshop 2010 will be streamed as a live event. There are both unicast and multicast streams available.

Update: Streaming works now. We apologize for all the inconvenience.

Unicast Streams

The unicast stream requires Flash. **This link**³ points to the live stream player.

Multicast Streams

The HD multicast stream is only available within the Funet Antenna area, but the SD stream should work globally. The two broadcasts are identified as:

SD `udp://223.6.205.99:1234`

HD `udp://233.6.205.96:2000`

Return Channel

We are using IRC as a return channel for spectator feedback. Join the channel #trex-workshop-2010 on IRCnet to ask questions from the presenters. Examples of IRCnet servers include `irc.cc.tut.fi`, **irc-net.choopa.net** and `ircnet.eversible.com`.
