FTTH-project in Southern and SouthEast Tampere region

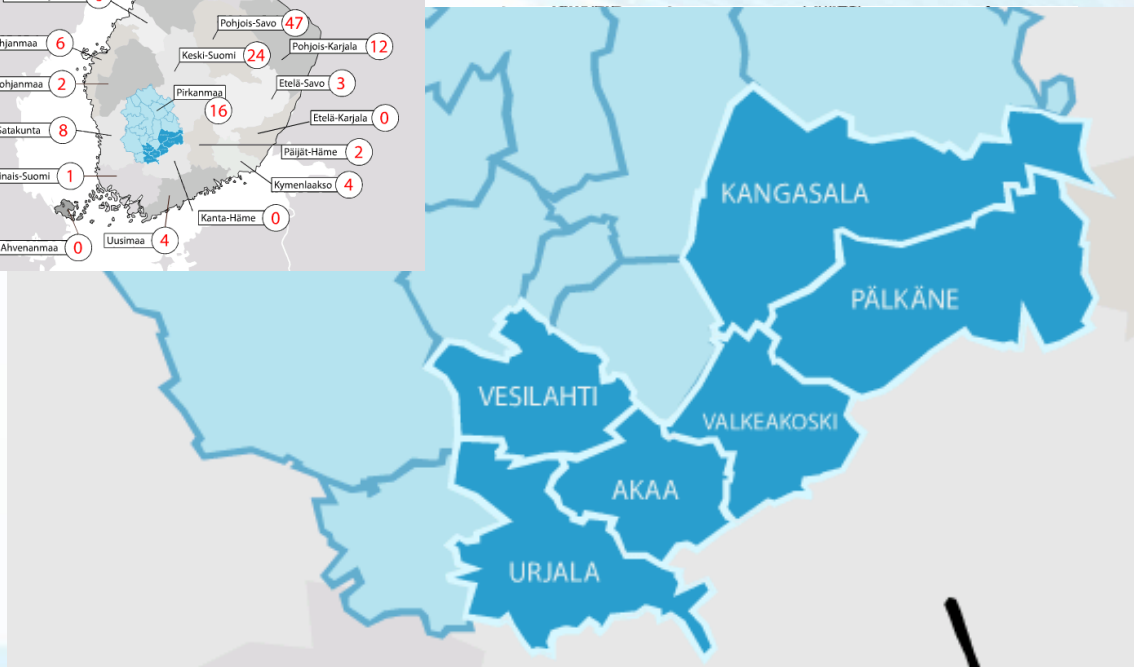

Fibre optic network to rural
areas

Euroopan maaseudun
kehittämisen maatalousrahasto:
Eurooppa investoi maaseutualueisiin

Pre-study area, 85 000 inhabitants

- Akaa
- Kangasala
- Pälkäne
- Urjala
- Valkeakoski
- Vesilahti

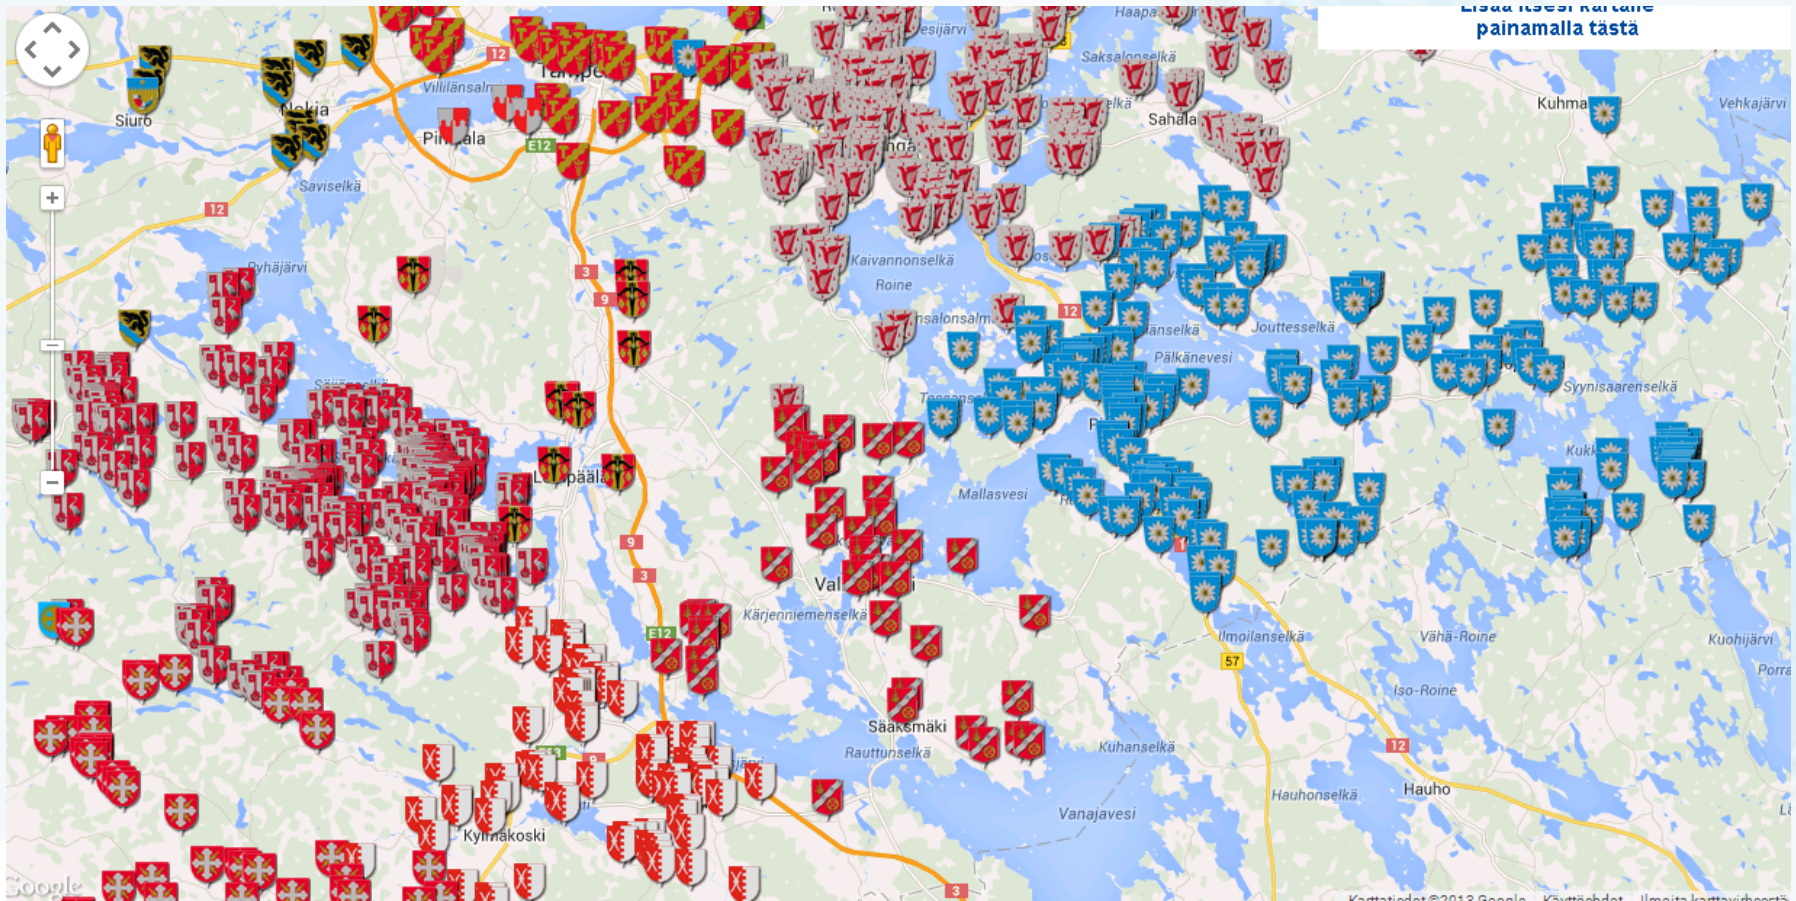

Possibilities

- **Vision for the future infrastructure**
 - Local business, global customers
 - Platform for new entertainment services
 - New ways to organize education in schools
 - New ways to organize social services ,e.g. elderly people
 - New business opportunities for all
 - More network traffic (good or bad?)

GOAL: It can be done

- **We have:**
 - High population density
 - Relatively short distances
 - Growing need for better, faster and more reliable connections
 - Several similar projects successfully completed in Finland

Growing interest everywhere!
