- ⚒ 14.01.2000 Rewritten from a 1997 draft that was never made public.

- ⚒ 26.04.2000 Pages were put online.

- ⚒ 30.06.2000 Added EtherChannel as a possible connection method to explore.

- ⚒ 04.06.2001 Changed the goals a bit to indicate **eTampere**[1] orientation. Also removed EtherChannel from the connection method options and simplified the implementation a bit. Added a budget draft into the Administrative Implementation section.

- ⚒ 10.09.2001 We have been chosen as an **eTampere**[2] broadband project.

- ⚒ 16.10.2001 Updated the budget draft and added more concrete information on how the company would work.

- ⚒ 17.10.2001 TREX was represented at a high technology fair that was held in Pirkkahalli, Tampere.

- ⚒ 23.10.2001 Added references to DWDM and WLAN roaming on the goals page. The "possible services" section should probably be moved elsewhere from that page ...

- ⚒ 01.02.2002 **eTampere**[3] selected eAccelerator to draft the necessary paperwork to create the company that will be TREX.

- ⚒ 04.06.2002 eAccelerator's drafts are ready, but the summer arrives before they are approved by all initial parties, so progress is marred by vacations.

- ⚒ 19.07.2002 Added a research page and changed the goals page to reflect the mutually accepted order and wording. Updated content on almost all other pages as well.

- ⚘ 03.10.2002 TREX Tampere Region Exchange Oy (ltd) registered.

- ⚘ 17.03.2003 New look and feel for pages. New domain.

- ⚘ 25.06.2003 First core switch arrived and was installed.

- ⚘ 08.07.2003 Added service descriptions.

- ⚘ 01.09.2003 New domain name, trex.fi.

- ⚘ 10.09.2003 Official **press release** in Finnish.

- ⚘ 11.09.2003 Official **press release** in English.

- ⚘ 17.09.2003 Added IP addresses and AS number.

- ⚘ 07.10.2003 Added the **Member Information Template** on the **Agreements** page.

- ⚘ 14.10.2003 Separated the **BGP Peering Requirements** on a page of its own, and linked it to the **Unicast**, **BMTU** and **Requirements** pages.

- ⚘ 17.10.2003 Added IPv6 address generation algorithm for peering VLANs.

- ⚘ 16.02.2004 Moved address assignments to separate pages from the member list page and added links to it around the site.

- ⚘ 08.03.2004 There is now an **RDF feed** for news about the exchange.

- ⚘ 13.04.2004 Added Q-in-Q and MPLS-in-Q services.

- ⚘ 24.05.2004 TREX joined a new workgroup created by **Ficora**[4]. This workgroup will define the interfaces that broadband access network operators use to give Internet service providers access to their networks.

  TREX's aim is to create a neutral interconnection point for this purpose.

- ⚘ 13.08.2004 Added the street address for the first switch on the **Contact Info** page.

- ⚘ 2005-2006 TREX took part in **Dependability Evaluation Methods for IP Networks**[5], a research project coordinated by **VTT**[6].

- ⚘ 01.10.2006 Capnova and Tavitex/Nebula left TREX.

- ⚘ 01.12.2006 FUNET joined TREX.

- ⚘ 15.01.2009 Started preparing **TREX Workshop 2009**.

- 12.02.2009 Hosted **TREX Workshop 2009**. Power point slides available.

- 31.08.2009 Second switch installed.

- 29.12.2009 New fee structure for next year onwards.

- 19.02.2010 Hosted **TREX Workshop 2010**. Videos and power point slides available.

- 11.03.2010 Added multicast peering details and removed Big MTU service, after the MTU in the normal unicast peering service was changed. Also removed sub-gigabit connection options while adding 10GbE.

- 15.06.2010 Added Single European Payments Area account number.

- 04.07.2010 Created pages describing the Teredo and recursive DNS servers.

- 11.08.2010 Added new PI IPv6 block 2001:67c:2b0::/48.

- 12.08.2010 Third switch installed, this one with 10GbE support.

- 12.08.2010 Cybercom Plenware joined TREX at 10GbE.

- 15.11.2010 Added a side menu to printable versions.

- 30.11.2010 Gave **a presentation** at Funet's technical days.

- 20.12.2010 Elisa's connection speed upgraded to 10GbE.

- 13.01.2011 Capnova connected to TREX.

- 19.01.2011 FNE Finland connected to TREX.

- 31.01.2011 CommunityDNS connected to TREX.

- 01.02.2011 Added a column for the Route Server in the members list.

- 02.02.2011 Started providing Route Server service to members.

- 01.03.2011 Added anycasted services to the **members page**.

- 06.03.2011 Started providing DNS64/NAT64 service.

- 08.03.2011 Seclan connected to TREX.

- 17.03.2011 Revamped public statistics.

- 23.03.2011 Academica connected to TREX.

- 29.06.2011 Announced **TREX Workshop 2011**.

- 29.06.2011 Changed the old RDF/RSS feed into an Atom news feed.

- ⚔ 04.09.2011 Added traffic statistics link on the front page.

- ⚔ 02.01.2012 TREX's DNS64 resolvers have been IPv6 enabled at Google.

- ⚔ 12.01.2012 CSC/Funet upgraded their connection to 10GbE.

- ⚔ 19.02.2012 Added some links to our **YouTube channel**[7].

- ⚔ 17.04.2012 Published **reseller pages** to the world.

- ⚔ 27.04.2012 Reworked the **Member Info Template** to be the first point of contact for joining the exchange.

- ⚔ 02.05.2012 **PCH**[8] signed agreement to join TREX.

- ⚔ 03.05.2012 Created a page about **workshops**.

- ⚔ 05.05.2012 Announced **TREX Workshop 2012**.

- ⚔ 01.06.2012 The first **reseller customers** connected: Planeetta Internet and SuomiCom ISP.

- ⚔ 10.09.2012 New official name of company is TREX Regional Exchanges Oy.

- ⚔ 01.01.2013 Raised fees for the first time.

- ⚔ 13.05.2013 Renamed Academica to TelecityGroup Finland.

- ⚔ 23.05.2013 TOAS connected.

- ⚔ 30.10.2013 Fifth **TREX Workshop** and celebrations for 10 years in operation.

- ⚔ 23.11.2013 **YouTube channel**[9] is now eligible for live streaming!

- ⚔ 12.02.2014 Moved AS112 out on the peering VLAN.

- ⚔ 15.02.2014 Moved some mailing lists to **Mailman**[10].

- ⚔ 21.03.2014 Created a permanent page for **accomodation** during **workshops**.

- ⚔ 09.06.2014 **TREX Workshop 2014** was streamed live on our **YouTube channel**[11].

- ⚔ 02.06.2016 Renamed TelecityGroup to Equinix Finland.
