

The Tampere Region Exchange (TREX) is a next generation exchange point. That means that in addition to being an **Internet exchange point**, TREX will focus on improving exchange point services, and on being a **research and development platform** for future communications technology and the Internet infrastructure.

### **Interested?**

Please send feedback to the address on the **contact page** or proceed to the **joining page** for information on joining procedures.

You can also meet us and talk to us at the up coming **TREX Workshop 2010!**
