List of mailing lists operated for TREX members.

accounting TREX sends announcements regarding accounting related issues on this mailing list. Members may also use this mailing list for discussion about accounting related issues.

The accounting contacts of members are automatically added on this list.

admin TREX sends administrative announcements that affect all members to this mailing list. Also, if TREX is terminating a member's connection, there will be a warning about it on this list.

Peering policy contacts and administrative contacts of members are automatically added on this list.

marketplace[1] This is no longer a mailing list, but a channel on mattermost. TREX will forward requests from potential customers of its members to this **mattermost channel**. Members may also promote their services to other members or send open requests for service tenders from other members on this list. These services may include for example:

- local, national or international circuits
- IP address space
- colo or rack space
- IP transit
- racks, generators and other colo-equipment
- telco equipment

It is not considered to be acceptable to promote services more often than once a month.

peering Members may use this mailing list for general discussion and announcements regarding peering related issues.

Both technical and administrative peering contacts of members are automatically added on this list.

research[2] This is no longer a mailing list, but a channel on mattermost. Members may use this channel for general discussion and announcements regarding current and future research topics and to find partners for research projects.

tech Members may use this mailing list for general discussion and announcements regarding technical issues.

Technical peering contacts and NOC contacts of members are automatically added on this list.

nog.fi invitations[3] Every year Finnnish IXPs host a couple of seminars on different topics for ISPs and other ISP minded people. They're called the **nog.fi meetings**[4]. By subscribing to this list you can ensure that you will get an invitation to the seminars. The invitations are sent when registration opens, or about a month before the events.

Previous visitors to the seminar are sometimes automatically subscribed to this mailing list.
